## **Plain brown wrapper**

Journalists who got a package in plain brown wrapper from the Central Intelligence Agency this week may have thought that they were the lucky recipients of an important leak. Alas. It was simply a copy of the agency's latest U.S.S.R. Energy Atlas, a full color exposition, complete with learned analysis, on major Soviet energy resources. The document may be ordered from the Government Printing Office; the stock number is 041-015-00157-4. Payment in rubles will be rejected.
